ACKNOWLEDGMENT

I would like to express my sincere gratitude to the individuals and organizations who made this case study possible.

First and foremost, I would like to thank Dr. Bernie Rivas, my professor, mentor and guide, for providing me with the necessary resources, guidance, and encouragement throughout this study. Without his valuable insights and feedback, this case study would not have been possible.

I would also like to extend my appreciation to the participants of this study, who generously provided their time and expertise to help me gather the necessary data. Their willingness to participate in this research was essential in achieving the objectives of this study.

I am also grateful to Mall of Asia Administration Office, which provided me with access to the data necessary for this study. Their cooperation and support were crucial in enabling me to carry out this research.

Finally, I would like to thank my family and friends for their unwavering support, encouragement, and patience during the course of this study. Their love and support were instrumental in helping me complete this project.

Once again, thank you to everyone who contributed to this study. Your support and guidance have been invaluable in helping me complete this project.
